

## **ASPETE'S International Partnerships**

For ASPETE, partnerships with higher education institutions worldwide not only assist in creating a distinctive educational experience for staff and students; they also allow ASPETE to adapt its mission and policies to a more competitive and globalised reality and to maintain an active presence in Europe and other parts of the world.

ASPETE has built and continues to develop strong and effective partnerships at national and international level, encompassing joint research and/or other projects, convening and conducting of conferences and symposia of international educators and other leaders in the field, joint postgraduate degrees, inter-institutional agreements for staff and student mobility in the frame of Erasmus+, and general **Memoranda of Understanding (MOU)** that highlight potential areas of cooperation. Implementing and sustaining these partnerships is among ASPETE's primary institutional goals.
